SUMMARY

I am an energetic and detail-oriented Computer Science fresh graduate student passionate about software & web development with hands on experience. My skills include fullstack development with proficiency in PHP, JavaScript, and HTML/CSS, alongside in HR roles. I am currently leading the GradeSaver platform and have successfully managed projects that enhance user interaction. I am eager to learn and grow in both full-time and freelance roles with my full potentials.

SKILLS

Languages: C, Java, Python(core), PHP(core), JavaScript(core)

Frontend: HTML, CSS, BootStrap, Tailwind, React(basics)

Backend: MySQL, Laravel & Django (have basic idea how it works)

Tools & Platforms: Git, Laragon, Postman, Figma, Canva, Excalidraw , Google sheets, VS Code

PROJECTS

GradeSaver

An online learning platform for university students

- Developed a system for managing course materials, student-instructor interaction, and secure file sharing with payment system.
- Implemented features such as multi-role login, OTP verification, password recovery, and real-time notifications, work history and PHPMailer.
- PHP, Mysql, HTML, CSS, JS, Bootstrap, Laragon, VS code.

CareSerenity

A platform for managing NGO and orphanage-related functionalities

- Developed a full-stack PHP system for blogs, donations, adoptions, and seminar launches
- Implemented dynamic dashboards and multi-role security access with advanced full control admin dash.
- PHP, Mysql, HTML, CSS, JS, Bootstrap, Laragon, VS code.

Faculty Management System

A website designed for university administration

- Created PHP & MySQL tool that optimizes faculty allocation and prevents schedule clashes.
- Included secure login, admin dashboards, and notice automation features.
- PHP, Mysql, HTML, CSS, JS, Xampp, VS code.

MediMate

A desktop application that enhances patient care

- Developed a Java-based desktop application to connect patients with healthcare providers.
- Achieved 2nd place in Advanced OOP project showcase.
- Java, Scenebuilder.

Personal Portfolio Website

A personal portfolio website showcasing projects and skills

- Created a responsive personal portfolio website using HTML/CSS/JS without templates.
- PHP, PHPMailer, Bootstrap.

Project Ababil

An IoT-enabled enemy detecting real-time scout drone.

- Built an IoT-based drone equipped with a 3-axis camera for real-time human tracking.
- ArduPilot, Ant Camera, Ifs Radio Controller, Receiver & transmitter, raspberry pi.
